

*The Deposites.*—We have been highly gratified with the speech of Col. S. Jones, of this State, on this subject. Col. J. is a nullifier; but it seems he is too spirited a nag for Mr. Calhoun to keep steadily in the traces. His speech, so far as received, is an able and conclusive argument against the Bank and the restoration of the deposits.

The "Richmond Equirer" states that it is understood Mr. Gilmer will likewise oppose the restoration of the deposits. This we hope will prove true. If it does not, we can only say, we have strongly mistaken his character for firmness of purpose, and for political consistency.
